## SUMMARY

I am ready to create a dynamic and collaborative team environment and to utilize my skills. With a focus on continuous improvement and a meticulous working style, I am prepared to contribute effectively to projects and deliver software solutions.

## WORK EXPERIENCE

**Software Developer**, Link Bilgisayar, Istanbul, Turkey(On site)

**March 2024 – October 2023**

Link Güneş Sistemi is **Turkey's most comprehensive ERP software**, helping businesses manage their critical business processes since 1988.

- Played an active role in **modernizing legacy technologies and digital transformation processes**.
- Migrated a C++ MFC and WinForms-based project to modern web platforms using **.NET 6.0.2**
- Performed code optimization and database enhancements to improve performance for **MFC C++ and .NET 4.6.2 projects**.
- Developed software, handled bug fixing , created the user interface and business logic layers of ERP software with **C++ MFC and C# WinForms**.
- Developed automated test scenarios using **NUnit** for enhanced test coverage.

**Software Developer Intern**, SNI, Istanbul, Turkey(On site)

**June 2023 – Aug 2023**

During my internship at SNI Technology, I had the opportunity to learn a multitude of new technologies through the provided road map and my consistent and diligent work. Throughout this experience, I gained proficiency in various technologies, including the fundamentals of **Java, SQL, Spring framework** Rest API architecture, **Hibernate-JPA, Flyway, and Docker**.

**Business Analyst Assistant**, TalentMondo, Talinn, Estonia(Remote)

**March 2021 – Sep 2021**

**Aimed to facilitate communication among international teams**, ensuring everyone had the support needed to achieve their product vision and goals. By analyzing product performance data, user interaction metrics, and other relevant information, we worked to maintain the success of product features and identify areas for improvement. During this process, **I maintained the data using Microsoft Excel and visualized it with Power BI**.

## TECHNICAL SKILLS

**Programming Languages:** C#, C++, SQL,

**Frameworks and Databases:** .NET, MFC, WinForms, MSSQL

## EDUCATION & BOOTCAMP

**Beykent University , Istanbul**

Management Information Systems

**Bootcamp:**

ebebek Java & QA & SAP Spartacus Practicum

**Sep. 2019-Sep. 2023**

**28/10/2022-25/11/2022**

## PERSONAL PROJECT

[Mango](#)

- **ASP.NET Core** Web Application with **Bootstrap 5 and Razor**
- **.NET API with Authentication and Authorization**
- **Async and Sync communication** between Microservices
- Gateways in Microservices
- **Role based authorization** with .NET Identity
- Azure Service Bus - Topics and Queues
- N-Layer implementation with Repository Pattern
